SAAS PLATFORM POWERED BY MS AZURE
Improved business agility with zero local deployment.

MAXIMUM MIGRATION PERFORMANCES
The fastest migration on the market.

Google Groups → Groups

CUSTOMER SATISFACTION

Never compromising on the quality of our products and services is how we ensure successful collaborations.

Mike Ammerlaan, Director of Microsoft 365 Ecosystem marketing at Microsoft Corp

"With years of experience and a new interface, Cloudiway offers a solution to MSPs and IT Professionals."

Why Migrating To MS 365?

Cost savings, migrating to Microsoft 365 Groups can reduce the need for separate solutions and streamline workflows, which can ultimately result in time and cost savings.

Performance, Microsoft 365 Groups provides more granular control and management over group settings, which can be important for larger organizations or groups with more complex requirements.

Customization, administrators can create custom templates for groups, and workflows to automate tasks.

Make It Simple

Don't let the fear of a complicated migration hold you back from switching to Microsoft 365.

Cloudiway's migration solution helps businesses perform elaborate technical migrations through a simple SaaS interface.

Migrating from Google to Microsoft 365 requires no additional software installation or overhead, and migrations can be performed securely and quickly.

CLOUD MIGRATION TOOL

Cloudiway's cloud migration tool is a software solution designed to automate transferring data from Google Groups to Microsoft 365 Groups.

The tool streamlines the migration process by automating the transfer of data from Google Groups to Microsoft 365 Groups, allowing organizations to **minimize downtime and reduce the risk** of errors during the migration process.

The new platform provides a **simple, user-friendly interface** that allows users to select the specific groups, messages, files, and other data to migrate from Google Groups to Microsoft 365 Groups.

It also maps the data from Google Groups to the corresponding Microsoft 365 Groups, ensuring consistency and organization within the platform.

Cloudiway allows users to map Google Groups users to the corresponding Microsoft 365 Groups users, ensuring a smooth transition for all users. It also provides detailed reporting and analytics to help users track the migration process and ensure that all data has been successfully transferred.

Cloudiway's migration solution is designed to minimize downtime and ensure data security.

KEY FEATURES AND FUNCTIONALITIES

Cloudiway provides a variety of features to ensure a smooth migration, including mapping, custom migration schedules, and automated provisioning. The platform is also fully compliant with industry standards, including GDPR, ensuring the security and privacy of your data during the migration process.

- Automated migration
- Selective migration
- Data mapping
- User mapping
- Reporting and analytics
- Security and compliance
- Support and assistance

Cloudiway provides a seamless and streamlined transition from Google Groups to Microsoft 365 Groups and helps you avoid potential risks and issues during migration.

WORK WITH CLOUD EXPERTS

Migrating from Google Groups to Microsoft 365 Groups involves several steps, including planning the migration, and executing the migration itself.

Cloudiway provides support and assistance throughout the migration process, with a team of experts available to answer questions and provide guidance as needed.

While there are other products that help to migrate from Google to Microsoft 365, only Cloudiway has over 10 years of experience in cloud migration with Microsoft 365.

By working on many other migration solutions, our support team knows how to track and ensure to avoid any risk of losing your content during the migration.

We've facilitated thousands of successful migrations varying in size and complexity.

More Advantages With MS 365

Better collaboration: Microsoft 365 Groups provides more advanced collaboration features, such as real-time co-authoring and integration with Microsoft Teams.

Enhanced security: Microsoft 365 Groups uses Azure Active Directory (AAD) for authentication and authorization, which provides more advanced identity management and access controls.

Easier management: With Microsoft 365 Groups, administrators can easily manage group membership, access permissions, and other settings.
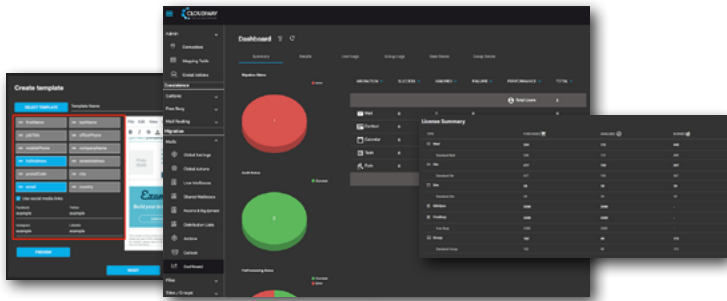

All-In-One Solutions

Not only Google and Microsoft 365, Cloudiway is the most complete solution to migrate businesses and organizations from different collaboration systems.

MIGRATION PROCESS IN REAL-TIME

Our easy-to-use interface lets you monitor the entire migration process, you're always in control.

The migration process is done in a few simple steps!

1. Create an account and connect to both your Google and Microsoft 365 accounts.
2. Select the groups you want to migrate.
3. The platform provides a real-time migration dashboard that allows you to monitor the migration progress and identify any errors or issues that may arise.

POWERFUL & INTUITIVE PLATFORM
Full-fidelity architecture and data reconciliation.

SUPPORTS ALL MIGRATION STRATEGIES
Batch, phased, or big bang.

HIGH AVAILABILITY
99.9% guaranteed availability. All data transfers are encrypted.

WHAT IS MIGRATED?

When migrating from Google Groups, all of the following items can be migrated:
- Conversation content, including:
  - ◊ Answers
  - ◊ Attachments
  - ◊ Metadata (author, date of creation)
- Group memberships
- Membership roles
- Target Microsoft 365 Group or Team is provisioned

During migration, Cloudiway creates the target objects (Microsoft 365 group, MS Teams, or shared mailbox) and automatically adds its existing members and their roles.

Delta passes can be used with group migration to ensure all batch migrations are completed. The Cloudiway platform uses the URL of the source group as the unique ID during migration. This ensures a group is only migrated once.

About Us

Founded in 2010, Cloudiway is a cloud migration and enterprise coexistence SaaS that help IT professionals migrate mailboxes, documents, groups, sites, archives, teams between different productivity and collaboration systems such as Google Workspace and Microsoft 365. Whether it is cross-tenant, on-premises to the cloud, or enterprise coexistence, to migrate small businesses or large corporations, Cloudiway is the company to turn to.
